# Advantages of Benefit Health Plan Inc Administrators, Inc (BHPI)

## **Self-Funded Assistance with Stop-Loss Protection**

We can help you to decide which benefits, if any, should be self-funded, and we can assist you with determining the appropriate Stop-Loss protection. Traditionally, insurance companies consider premiums as a prepayment of future claims. However, sometimes companies would prefer to have better control over their funds. With self-funding benefits, this is possible, because employee claims are paid from the company's budget, instead of from the insurance company. Of course, this type of plan comes with an element of risk. If the amount of employee claims is within the company's budget, they are able to be paid, and the company will get to keep the surplus. But what if employee claims are higher than what is in the company's budget? This is where Stop-Loss comes in. It reduces this risk by referring claims over the predetermined limit to an insurance company for processing. In this case, the Stop-Loss limit is similar to a high deductible.

## **Lower Administration Costs**

With BHPI TPA self-funded and level-funded clients, expenses are reflected only as a percentage of claims. Clients pay for only paid claims rather than estimated premiums. There is no cash advance required, which is typically the case with other third-party administrators. On the other hand, if an insured person claims an amount that is over the Stop-Loss level, the company will not be billed, nor will there be an applicable fee (the Stop-Loss insurer will directly manage the following claims). Expenses are never charged for claims exceeding the chosen Stop-Loss level, making the competitive pricing structure of BHPI TPA advantageous over services provided by other TPAs.

## **Full-Service Administration**

BHPI TPA is a TPA providing group benefit services to over 1,000 businesses and 100,000 employees nationwide, with over 25 years of experience in administrative capabilities. Additionally, BHPI TPA can be combined with your online payroll, human resource and time management service to eliminate errors. Employees are provided with personalized booklets that describe the insurance programs and the administrative benefits. Clients are assigned an account representative who works directly with them to resolve issues.

# BHPI Group Supplemental Coverage

## **Critical Illness Coverage**

No matter where you are in life, you never know when you or a loved one could experience a critical illness, such as a heart attack or stroke.

Medical advancements and early detection are helping many people survive critical illnesses. However, preventive tests and treatment can lead to increased medical expenses, and your health insurance may not cover these costs. Critical illness insurance helps supplement your major medical coverage by providing a lump-sum benefit that you can use to pay the direct and indirect costs related to a covered critical illness.

## **Disability Insurance**

You never know when a disability could impact your way of life.

Fortunately, there is a way to help protect your income. If a covered accident or sickness prevents you from earning a paycheck, disability insurance can provide a monthly benefit to help you cover your ongoing expenses. Disability insurance helps protect your income, so you can have help paying the bills while you recover from a covered accident or sickness.

## **Additional Term Life Insurance**

Life insurance needs change as life circumstances change. You may need more coverage if you're getting married, buying a home or having a child. Term life insurance from Colonial Life provides protection for a specified period of time, typically offering the greatest amount of coverage for the lowest initial premium. This fact makes term life insurance a good choice for supplementing cash value coverage during life stages when obligations are higher, such as while children are young. It is also a good option for families on a tight budget – especially since you can convert it to a permanent cash value plan later.

## **Whole Life Insurance**

You cannot predict the future, but you can rest easier knowing you have life insurance with lifelong guarantees. Whole life insurance from Colonial Life provides guaranteed cash value accumulation, level premium and a death benefit (minus any loans and loan interest). This coverage can help protect your family's way of life.

# Plan Highlights for Benefit Plans

Employees say: “We want to be compensated fairly, a way to save for retirement, affordable health insurance, a primary care provider (PCP) who cares about me and my family, open access to specialists, Life Insurance, Telemedicine, help with deductibles and out of pocket costs, and a way to save on taxes.”

Through membership in our Benefit Logistics program, you can now offer exactly what employees want. We have created a specific employee benefit plan that contains:

- A dedicated assigned Primary Care or Urgent Care physician for some plans, yet they can go to any in-network primary care or specialist physician for care.
- Authorizations are required for inpatient and/or outpatient services and diagnostic tests.
- Emergency services are covered anywhere, even if out of network, so you are covered while you travel!
- \$0 Co-Pay for Primary Care (assigned PCP) and \$0 Telemedicine visits.
- Open Access to Primary, Specialists, and Imaging Facilities with Co-Pay assistance.

- Lens Enhancements: Most popular are covered with a copay, saving 20–25%, average
- Additional Pairs of Glasses: 20% off
- Laster Vision Correction (LVC): Average 15% Discount

**No one should leave a family member with grief and unexpected debts, so Group Term Life Insurance is included in one Plan but only cost \$10/mo. in all others!**

Group Life provides basic coverage to employees while giving them the opportunity to purchase voluntary term life. This is included in the 8300 HSA Plan at no cost but can be purchased for an additional \$10 per month on all other plans.

**Our Life Plan Includes:**

- Guaranteed issue amounts of \$20,000.00 for Base Coverage and \$200,000.00 buy up option: Eligible employees, spouses, and dependent children, will receive a specified amount of life coverage without medical underwriting
- Waiver of premium: Premiums for a covered person are waived after total disability for 6 months beginning before his/her 60th birthday (until age 65)
- Guaranteed conversion: If employee, spouse, or dependent loses coverage due to employee's loss of employment, loss of eligibility, or reduction for age, the coverage can be converted to an individual whole life insurance policy
- Accelerated benefit for terminal illness: 50% benefit of basic group term life insurance (not to exceed \$200,000) payable upon proof of terminal illness
- Benefit for death of a spouse until age 65
- Benefit for death of a child ages 15 days to 26 years
- AD&D coverage at DOUBLE THE FACE VALUE: Provides double compensation in the event of certain disabling accidents or accidental loss of life

**Additional Life Plan Options:**

- Employee coverage: a flat amount of coverage, or a multiple of the employee's salary rounded to the next \$1,000, or based on employee classification
- Spouse coverage: \$5,000 to \$20,000
- Dependent child coverage: \$500 to \$5,000
- Minimum coverage: \$10,000 to \$15,000
- Maximum coverage: Lesser of 7 times annual salary or \$1 million, combined with Supplemental Life

# Most PEOs treat Employee Benefits as a required offering and line-item expense. Teach your Employers to use benefits to Recruit, Retain, and Reward!™

---

Employee benefit plans have been around for many years. Defined Benefit Plans (Pension plans) were once the “best” benefit, but now are rarely offered. Most Traditional Health Plans have become unaffordable, and most Employers don’t have enough profit to contribute to their employees Retirement plans. The combined effect has had a resounding effect upon the ability to Recruit, Retain, and Reward™ the best employees. We are so focused on helping Employers Recruit, Retain, and Reward™ employees that we trademarked the phrase! That’s right, we own it!

Our Employee Benefit Plans are different. We combine all employee benefit plans in one offering, seamlessly integrating Medical, Dental, Vision, Disability, Retirement, and Voluntary benefits into one simple enrollment. We integrate into many payroll and new hire processing systems. On the 401(k) Retirement side, we offer a quick no-fee startup plan with no matching requirements! Since 2005, we have been offering flexible plan designs, utilizing a traditional High Deductible Health Plan with technology, Health Savings Accounts, and/or Health Reimbursement Arrangements to reduce premiums and obtain claim costs. Larger employers (over 200 employees) use Self-Funded techniques as well as Workers Compensation rules to control the P&L of their health plan, and so do we. When you have data about true claim costs and employee productivity, then, just like in business, you know what your expenses and revenue are with your health plan. Now, with the Secure Act 2.0/3.0 changes, we have added 401(k) employee benefit plans to our platform.

How do we do it? Our larger employers have the advantage of a large number of employees to spread the risk of their health plan. The larger the risk pool, the less expensive the cost of insurance. Now, through our exclusive Benefit Logistics Insurance Plan, underwritten by our own Captive Insurance Company, we can offer the same benefits as larger employers to many small and medium-sized employers across the globe. We are proud to be one of the only companies offering this type of program, which reduces the overall cost of your benefit plans while offering more benefits, so your company can Recruit, Retain, and Reward™ employees, your #1 asset within your organization.

You still receive a tax benefit by paying a portion of an employee’s monthly premium. If you choose to take some of the savings to contribute towards an employee’s Health Savings Account (HSA), Section 125, or 401(k), your tax benefits may grow. We are glad you are taking the time to learn about our revolutionary products and services. Our Benefit Plans contain the top 10 requested benefits by employees according to a survey by Kaiser Permanente. We know you will love our program!

# The Pooled Employer Retirement Plan Program, now affordable.

---

Beginning in 2025, the SECURE 2.0 Act expands automatic enrollment in retirement plans. The rationale is that automatic enrollment in 401(k) plans has been shown to increase participation.

According to the U.S. Department of Labor, "Whether you already have a 401(k) plan or are considering starting one, automatic enrollment 401(k) plans offer many advantages."

In addition to helping small businesses attract and retain employees, the Labor Department points to tax advantages associated with 401(k) participation (including the deduction of employer contributions and deferred taxation on contributions and earnings until distribution).

With some exceptions for small businesses, SECURE 2.0 requires 401(k) and 403(b) plans to automatically enroll eligible participants, who can opt out of participation.

"We're not trying to put an undue burden on the small employer. We're trying to help the employee who works for a small employer be a lifetime saver," Ways and Means chairman Richard Neal (D-Mass.) said at the hearings. To offset administrative costs for employers, the rule includes a tax credit to employers for setting up the plans. And a tax penalty of up to \$900 per employee per year if they don't comply.

Our PEP is a multiple-employer plan designed to take the burden of administration off employers' hands. Traditionally, businesses in a multiple-employer plan had to be related by industry or association (such as a trade group). This made it easier for them to share a single plan and not have to file separate Forms 5500 or do individual audits.

401(k) Setup Fees – Normally \$2500 - \$10,000 are completely Waived when utilizing one of the health plans offered, so there is no cost and no obligation to match funds.

Per employee per month Admin fee - \$1.00 – That's it. We will offer your employees your 401(k) Retirement Account. This will help your company stand out above the rest. Employees are usually more productive. The retirement option gives them an incentive to remain with you for many years.

To maintain Safe Harbor status, employers must:

- Contribute to employee accounts a minimum of: 3% to every employee or a 4% match
- Vest 100% of employer contributions immediately after 2 years of service
- Deliver specific Safe Harbor notices to employees
- Commit to making the contributions for the entire year.

It is worth noting that a 2022 Survey found that 50% of employers offered a match of 4% or more.

If an employee leaves at any time prior to 2 full years of service, they forfeit the employer matching funds and that goes back to the pool, in which you are the largest part of. In essence, its getting back the money that you would have given away.

# Advantages of Benefit Health Plan Inc Administrators, Inc (BHPI)

There are many advantages to using third party administration for benefit packages.

## **Access to Top Insurance Companies**

Third party administrators help you get access to the top insurance companies in the market, making it easy to place your benefit packages with the insurer best suited to your needs. Maximum Benefits will obtain quotes for your various benefits from the leading insurance companies.

## **Choose the Best Insurer for Each Benefit**

If you offer group health, life, dental, short-term or long-term disability insurance, using a third-party administrator such as the BHPI TPA allows companies to pick and choose the best insurer for each individual benefit. With easy access to the market, they can identify the best company that provides the “maximum benefit” for each insurance program, with only one enrollment form needed. You can also add additional benefits such as Critical Illness, Prescription Drug and Best Doctors Plans.

## **No Need to Re-Enroll Employees**

Shopping for group plans can be a daunting task when different companies require different application forms. Employers can become frazzled when it comes to getting all the various forms back from employees. However, with BHPI TPA, you only need one enrollment form for your employees, and there is no need to re-enroll when switching carriers. This is a huge time-saver for the employer, alleviating the burden of distributing, collecting and submitting all of the various forms. With BHPI TPAs’ third-party administration, it becomes possible to adjust your plan as needed without completing more paperwork.

## **Self-Funded Assistance with Stop-Loss Protection**

We can help you to decide which benefits, if any, should be self-funded, and we can assist you with determining the appropriate Stop-Loss protection. Traditionally, insurance companies consider premiums as a prepayment of future claims. However, sometimes companies would prefer to have better control over their funds. With self-funding benefits, this is possible, because employee claims are paid from the company’s budget, instead of from the insurance company. Of course, this type of plan comes with an element of risk. If the amount of employee claims is within the company’s budget, they are able to be paid, and the company will get to keep the surplus. But what if employee claims are higher than what is in the company’s budget? This is where Stop-Loss comes in. It reduces this risk by referring claims over the predetermined limit to an insurance company for processing. In this case, the Stop-Loss limit is similar to a high deductible.

## **Lower Administration Costs**

With BHPI TPA self-funded and level-funded clients, expenses are reflected only as a percentage of claims. Clients pay for only paid claims rather than estimated premiums. There is no cash advance required, which is typically the case with other third-party administrators. On the other hand, if an insured person claims an amount that is over the Stop-Loss level, the company will not be billed, nor will there be an applicable fee (the Stop-Loss insurer will directly manage the following claims). Expenses are never charged for claims exceeding the chosen Stop-Loss level, making the competitive pricing structure of BHPI TPA advantageous over services provided by other TPAs.

## **Full-Service Administration**

BHPI TPA is a TPA providing group benefit services to over 1,000 businesses and 100,000 employees nationwide, with over 25 years of experience in administrative capabilities. Additionally, BHPI TPA can be combined with your online payroll, human resource and time management service to eliminate errors. Employees are provided with personalized booklets that describe the insurance programs and the administrative benefits. Clients are assigned an account representative who works directly with them to resolve issues.

# Employee Call Center & Advocacy Program

Members who have issues with their insurance carriers can have lower productivity and morale. Resolving issues with insurance carriers can be a daunting task. Having a trained professional who understands the intricacies of the healthcare system and how to navigate through it can truly be a life saver. For those employees who need help, they can access the BHPI TPA Employee Advocacy program.

## Personalized Employee Support

- Benefit Assistance
- Eligibility issues and resolution

BHPI TPA Advocates help sort out and solve claims and related paperwork problems. We work on coverage issues and help members understand their benefits.

## Examples of Services Include

- Helping with Retirement Savings tools, such as target date funds
- Researching a member's outstanding out-of-pocket responsibilities and resolving errors with providers and/or their health plan.
- Correcting balance-billing problems.
- Resolving eligibility problems and benefit and claim denials.
- Correcting charges incorrectly applied to the member's deductible.
- Resolving incorrect plan procedure interpretations such as emergency room claims denied for a lack of precertification.
- Assuring correct application of provider network status.
- Providing payers with additional information required to correctly pay a claim or apply a benefit.
- Resolve coordination of benefits disputes between multiple carriers.
- Resolving errors in the application of deductibles and co-payments.

# Health Savings Account (HSA)

## What is a Health Savings Account?

A Health Savings Account (HSA) is a tax-advantaged account for individuals who are covered by a high-deductible health plan (HDHP). Contributions are made to the HSA account. These contributions can be used to pay for qualified medical expenses, such as medical, dental and vision care, as well as prescription drugs. Your HSA plan has a maximum out of pocket amount of \$8050 for individual in 2024.

An HSA is like a personal savings account with investment options for health care. The employee owns the HSA account and funds the account with TAX-FREE dollars. Investment options are available once a minimum balance of \$500 is reached.

You can start, stop, or change your payroll contributions at any time during the plan year. Please check with the Human Resources Department for additional information. HSA funds can be used for any eligible HSA expense. Regular medical, dental, and vision expenses are most common.

For example, if you are going in for an annual eye exam, and you do not have vision coverage, you can use your HSA funds to pay for that exam.

Advantages of an HSA	You may not be eligible for an HSA plan if:
<ul style="list-style-type: none"><li>• HSA contributions are pre-tax deductions.</li><li>• Withdrawals for health care expenses are tax-free.</li><li>• You earn tax-free interest on the money in your account.</li><li>• Your HSA balance rolls over from year to year; you do not forfeit any unused balance.</li><li>• It is always yours to spend on eligible health care expenses.</li></ul> <p>You can also save and invest for future use.</p> <ul style="list-style-type: none"><li>• At age 65, you can start using your HSA dollars for any purpose, not just health care expenses and your health care withdrawals are tax-free.</li></ul>	<ul style="list-style-type: none"><li>• You are covered by an FSA (unless \$0 balance)</li><li>• You are covered by an HRA (unless \$0 balance)</li><li>• You are covered by another health plan (unless it is another HSA-qualified plan)</li><li>• You are enrolled in Medicare A</li><li>• You are a dependent of another taxpayer</li></ul>
HSA Contribution Limits and Uses	HSA Contribution Limits for 2025
<p>Your HSA deferrals are deposited into your HSA account through payroll deductions. You can defer up to the annual contribution limit amounts shown below. Those age 55 and older can contribute an additional \$1,000 annually.</p>	<ul style="list-style-type: none"><li>• Individual - \$4,150</li><li>• Family - \$8,300</li><li>• Catch-up (55+) - \$1,000</li></ul>

# Voluntary Options available on a case-by-case basis:

---

## **Cancer Coverage**

If you were diagnosed with cancer, you could have expenses that medical insurance does not cover. In addition to your regular, ongoing bills, you could have to pay for out-of-network treatment, child-care, home health care services, and other indirect treatment and recovery costs, travel to and from treatment centers, lodging and meals, deductibles – or any other way you choose. Hopefully, you and your family will never face cancer. If you do, cancer insurance can help protect the lifestyle you have worked so hard to build.

## **Critical Illness Coverage**

No matter where you are in life, you never know when you or a loved one could experience a critical illness, such as a heart attack or stroke. Medical advancements and early detection are helping many people survive critical illnesses. However, preventive tests and treatment can lead to increased medical expenses, and your health insurance may not cover these costs. Critical illness insurance helps supplement your major medical coverage by providing a lump-sum benefit that you can use to pay the direct and indirect costs related to a covered critical illness.

## **Disability Insurance**

You never know when a disability could impact your way of life. Fortunately, there is a way to help protect your income. If a covered accident or sickness prevents you from earning a paycheck, disability insurance can provide a monthly benefit to help you cover your ongoing expenses. Disability insurance helps protect your income, so you can have help paying the bills while you recover from a covered accident or sickness.

## **Additional Term Life Insurance**

Life insurance needs change as life circumstances change. You may need more coverage if you're getting married, buying a home or having a child. Term life insurance from Colonial Life provides protection for a specified period of time, typically offering the greatest amount of coverage for the lowest initial premium. This fact makes term life insurance a good choice for supplementing cash value coverage during life stages when obligations are higher, such as while children are young. It is also a good option for families on a tight budget – especially since you can convert it to a permanent cash value plan later.

## **Whole Life Insurance**

You cannot predict the future, but you can rest easier knowing you have life insurance with lifelong guarantees. Whole life insurance from Colonial Life provides guaranteed cash value accumulation, level premium and a death benefit (minus any loans and loan interest). This coverage can help protect your family's way of life.
